

Year 3: Funny Bones

As artists we will look at movement within artwork and how to create gestural drawings using our whole bodies.

As designers we will be making a healthy item for a lunchbox. We will also be designing and making packaging for our healthy wraps.

As scientists we will understand what we need to eat and do to live a healthy life, including nutrition. We will also learn why we have bones and muscles and compare human skeletons to animal skeletons.

Alice Dent and
the Incredible
Germs

Celebration!

Creating a whole
Year Group piece
of artwork

Pupils' lines of enquiry:

What happens if we don't have bones?

What are muscles?

Do we have bones in our neck?

How can we protect ourselves?

How can we live a healthy life?

English – Our term will begin with Poetry week based on 'The Lost Words'. We will be revising our knowledge and understanding of what a sentence is and will and how to use our writing skills to construct accurate, interesting sentences. We will be writing our own version of a fairy tale and a non-chronological report about how to keep healthy. We will also be beginning 'Whole Class Reading'.

Maths - We will be learning about the place value of numbers to 100 and we will begin to add and subtract larger numbers.

Other wow events:

Art Week, Poetry week, healthy sandwich making

Year : 3

Subjects being taught throughout this project that do not directly link:

PHSE- We will be learning about different types of families - recognising and respecting that there are different types. We will explore all the positive aspects of being in our families and discuss ways that people can care for each other. We will identify if/when something in a family might make someone upset or worried and what to do and whom to tell.

R.E.- We will be exploring what it means to follow God.

ICT - we will practise logging in to the computers and continue to learn to code.

Art- Art week based on 'The Lost Words'.

Music - We will begin our unit on 'Castles'.

P.E. - we will be focusing on our 'personal best' and aiming to improve by taking part in a variety of exercises. Using our new science knowledge, we will think about how physical activity affects our body. Both classes will also be going swimming.
